PROFILE

Proficient Software Engineer with expertise in the MERN stack (MongoDB, Express.js, React, Node.js) and containerization using Docker and Kubernetes. Experienced in building scalable web applications, RESTful APIs, and microservices. Strong in Agile practices, CI/CD, Git, and cloud platforms like AWS and Azure. Focused on delivering efficient, high-performance solutions to drive business success.

WORK EXPERIENCE

Mar 2024 - Jun 2025
Nplus Technologies
Software Engineer

- Built and maintained scalable **MERN stack** apps for the **TaxiAppz** platform with responsive UI and modular backend.
- Integrated **REST APIs**, third-party services, and deployed solutions on **Microsoft Azure** for enhanced reliability.
- Worked in Agile teams using **Git**, **CI/CD**, and DevOps practices to streamline development and releases.

Apr 2023 - Feb 2024
Kovai.co
Associate Software Engineer

- Built **Document360tools**, an internal productivity tool using the **MERN stack**, designed to support and extend the functionality of the Document360 platform.
- Implemented features for data handling, UI components, and system automation; deployed and managed services on **Microsoft Azure**.
- Collaborated in Agile teams using **Git**, **CI/CD pipelines**, and modern DevOps practices to ensure smooth delivery and integration.
